How to reset the router to factory defaults?
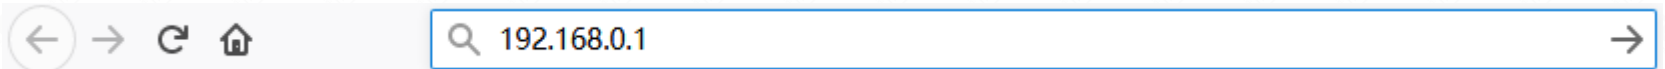

It is suitable for：　**N100RE, N150RH, N150RT, N151RT, N200RE, N210RE, N300RT, N301RT , N300RH, N302R Plus, A702R, A850, A3002RU**

Application introduction:　If you can't access the router's setup interface or simply forgot the router's password, you may reset the current configuration to factory default. There are two ways to.

Method 1

STEP-1:

Connect your computer to the router by cable or wireless, then login the router by entering http://192.168.0.1 into the address bar of your browser.
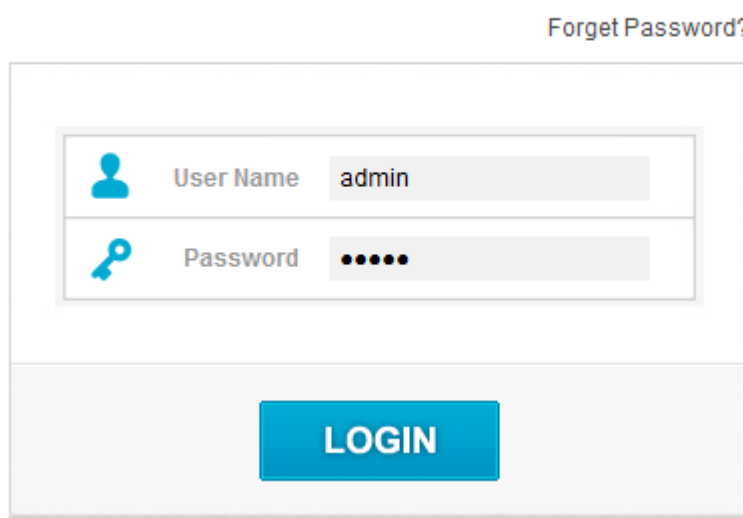

← → C ⌂   🔍 192.168.0.1   →

Note:

The default access address varies depending on the actual situation. Please find it on the bottom label of the product.

STEP-2:

User Name and Password are required, by default both are **admin** in lowercase letter. Click **LOGIN**.
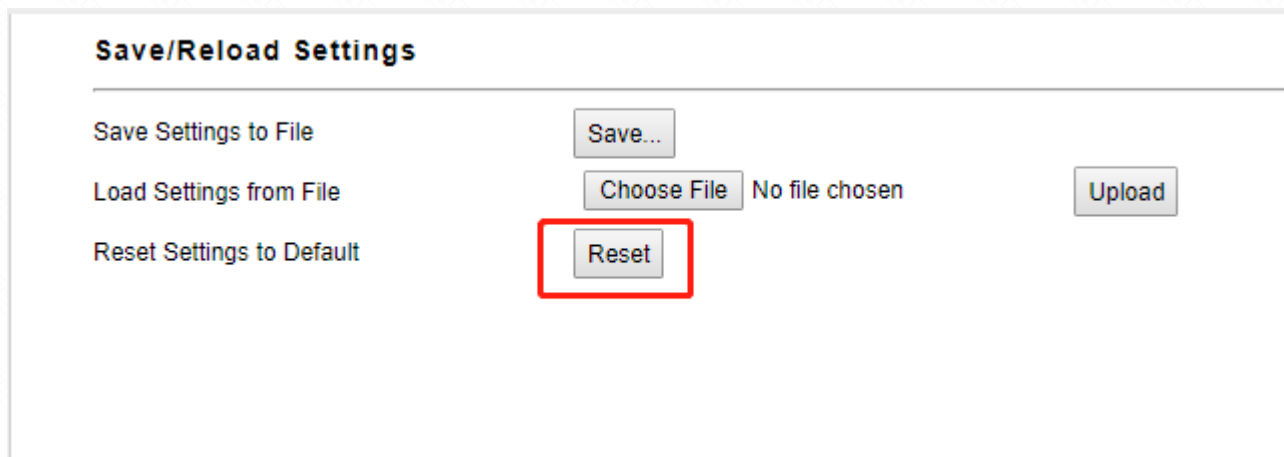

USER LOGIN

Forget Password?

👤 User Name   admin

🔑 Password   •••••

LOGIN

STEP-3:Check Time Zone Setting

Click **System->Save/Reload Settings** on the navigation bar on the left.

⚙ System   –
　Upgrade Firmware
　Save/Reload Settings
　DDNS Settings
　Denial-of-Service
　Time Zone Settings
　TR-069 Config
　Notice Setting
　Password Settings
　Reboot Schedule
　System Log
　Statistics
　Run Command
　Logout

STEP-4: Reboot Schedule Setup

Click **Reset Settings to Default** to reset the router's configuration.

Save/Reload Settings

Save Settings to File   Save...

Load Settings from File   Choose File No file chosen   Upload

Reset Settings to Default   Reset

STEP-5:

Click OK and wait for few seconds to finish resetting.

192.168.0.1 says: ✕

Do you really want to reset the current settings to default?

OK   Cancel

Method 2

Only by one click on the RST/WPS button

STEP-1:

Press and hold the RST/WPS button for about 10 seconds, until the CPU led blink quickly.

STEP-2:

After nearly 30 seconds, resetting is finished.
