

How to change SSID of EX200

It is suitable for : **EX200**

Application introduction:

The wireless extender is a repeater (Wi-Fi signal amplifier), which relays a WiFi signal, expands the original wireless signal, and extends the WiFi signal to other places where there is no wireless coverage or where the signal is weak.

Set up steps

STEP-1: Configure the extension

× Please reset the extender first by pressing the reset button/hole on the extender.

X Connect to the extender's LAN port with a network cable from a computer network port (or to search for and connect the expander's wireless signal)

Note: The default Wi-Fi Name and Password are printed on the Wi-Fi Info Card to connect to the extender.

STEP-2: Login to the management page

Open the browser, clear the address bar, enter 192.168.0.254 to the management page, Then check Repeater Setting.

	×
