N600R QOS settings

It is suitable for : **N600R, A800R, A810R, A3100R, T10, A950RG, A3000RU**

Application introduction:

Solution about how to configure QoS on TOTOLINK products.

STEP-1:

Connect your computer to the router by cable or wireless, then login the router by entering http://192.168.0.1

into the address bar of your browser.

| ← → C ⌂ | 🔍 192.168.0.1 | → |

Note:

The default access address varies depending on the actual situation. Please find it on the bottom label of the product.

STEP-2:

User Name and Password are required, by default both are **admin** in lowercase letter. Click **LOGIN.**

USER LOGIN

Forget Password?

| 👤 User Name | admin |
| 🔑 Password | ••••• |

LOGIN

STEP-3:

Please go to **Qos ->Qos** page, and check which you have selected.

Select **Enable**, then Input **Total Uplink Bandwidth and Total Downlink Bandwidth,** then Click **Apply.**

You can fill in **IP Address** and **Total Uplink Bandwidth** and **Total Downlink Bandwidth** you want to restrain, then Click **Apply**
