

How to export the router's system log by E-mail?

It is suitable for: A3, A1004, A2004NS, A5004NS, A6004NS

Application introduction

The system log of the router can be used to find out why the network connection fails.

Take A1004 as an example:

STEP-1:

Login to the TOTOLINK router in your browser.

STEP-2:

Confirm that your router is connected to internet.
